CAREER OBJECTIVE

MCA student with a strong foundation in Java, Python, Data Structures & Algorithms, and Web Development (HTML, CSS, JavaScript), seeking a Web Developer / Software Developer role to apply problem-solving skills, build scalable applications, and contribute to real-world engineering teams.

EDUCATION

Master of Computer Applications (MCA) IMS Engineering College (IMSEC), Ghaziabad	2025 – 2027
Bachelor of Computer Applications (BCA) Devi Ahilya Vishwavidyalaya, Indore, MP	CGPA: 6.8
Senior Secondary (12th) Kisan Inter College, Varanasi	69%
Secondary (10th) Kisan Inter College, Varanasi	68%

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript
Web Technologies: HTML, CSS, JavaScript, React (basics)
Database: MySQL
Tools & Platforms: Git, GitHub, VS Code, Postman
Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems

PROJECTS

Swasthik – Hospital Management System %Developed a hospital management system to streamline patient, doctor, appointment, and hospital record management. %Designed user-friendly modules to manage patient information, appointments, and medical records efficiently. %Implemented database-driven functionality to improve data organization and reduce manual record-keeping. %Successfully completed the project and received an A Grade.	BCA Final Year Project
Banking Management System %Designed and developed a console-based banking system in Java implementing core OOP principles (encapsulation, inheritance) to manage accounts, deposits, withdrawals, and transaction history. %Built modular, reusable classes with input validation to handle real-world banking operations reliably. %Prepared complete documentation and defended design choices in a mock viva/examiner evaluation.	Java, OOP, File Handling
Netflix Clone %Built a responsive front-end replica of the Netflix landing page focusing on layout accuracy, CSS Flexbox/Grid, and visual fidelity. %Practiced semantic HTML structuring and mobile-responsive design principles.	HTML, CSS
Network Intrusion Detection System (NIDS) %Co-developed a mini-project detecting network intrusions using Python and Flask, under faculty supervision. %Authored a 12-page institutional synopsis and an IEEE Std 830-1998 compliant Software Requirements Specification (SRS) document, including a traceability matrix and REST API specification.	Python, Flask
E-Commerce Sales Data Analysis %Collaborated in a team to perform data cleaning, exploratory data analysis (EDA), and insight generation on an e-commerce sales dataset. %Delivered three structured analytical reports summarizing key business insights and trends.	Python, Excel

CERTIFICATIONS

%Meta Front-End Development Certificate — Coursera
%IBM SkillsBuild — AI Fundamentals, Project Management, Lifelong Professional Skills
%Data Analytics Certification — Code With Harry

SOFT SKILLS

Communication • Teamwork • Problem-Solving • Time Management • Adaptability
